My Green Day

By Melanie Walsh

Ten green things I can do today.

Good morning ! When I wake up, I eat a free-range egg for my breakfast. I put my eggshell in the compost bin where it turns into soil for growing vegetables. I help empty the washing machine and peg our clothes out to dry. At school, I make presents for my grandma. At lunch, I eat up all my pasta. After school, Mummy and I go to the shops and use our own bags to pack the shopping. In the park, I play hide and seek in the trees. Daddy and I bake delicious muffins for tea. In the evening, I put on a jumper when I get chilly. I have a shower before I go to bed, and that's the end of my green day.
